Outdoor Office Spaces In the Post-Pandemic World
Since COVID-19 hit, building trends are shifting toward outdoor and hybrid outdoor spaces. This is especially true of office buildings, where the increase in ventilation provides a boost to both productivity and employee health. Read Full Article

9 Winter Preparation Tips For Facility Managers
Winter can be a brutal season for facilities. With the addition of the COVID-19 outbreak this year, winter is shaping up to be especially challenging. Here are 9 tips to help facilities weather the season Read Full Article

Tips For Cutting Energy Costs In School Facilities
When it comes to the COVID-19 pandemic, schools are some of the most seriously impacted institutions. Fortunately, there's one way that schools can decrease their outgoing expenses: cutting their energy costs. Read Full Article
The Pandemic Is Changing How Facility Managers Deal With Floors
Pathogens could easily be transmitted from a contaminated floor to adjacent furniture or objects in the room. Facility managers are responding to this by changing the way they handle everything from floor cleaning to the flooring itself.
